 September 24 – 27 2008
Ritz Carlton
 South Beach, Florida

5 Stars Travelocity

4.5 Stars Expedia

4.8 Starts Fodors

The Ritz Carlton South Beach is listed in the 2008 Conde Nast Gold List of the world's best places to stay!

Excerpts from Fodor's Hotel Review:

A sumptuous affair, the Ritz-Carlton is the only truly luxurious property on the beach that *feels* like it's on the beach because its long pool deck leads you right out to the water. ... The spa has exclusive brands of scrubs and creams, and dynamite staff including a "tanning butler" named Malcolm who, from 11 AM to 3 PM Thursday to Sunday, will make sure you're not burning, and will apply lotions in the hard-to-reach places. He manages to make this gimmick such a real treat you may end up buying a "tanning butler" T-shirt. ... The DiLido Beach club restaurant, believe it or not, is one of the very few places in Miami where you can get a beachside meal. Overall, this landmarked 1954 art-modern hotel, designed by Melvin Grossman and Morris Lapidus, has never been hotter.

The room rate for this 5 star luxury hotel is only \$199.00 per night.

Registration Fees per Attendee / Guest <i>Book your hotel reservations early as there is a limited number of rooms available</i>	Pay ON or BEFORE	Pay AFTER
	August 15	August 15
Attendees for the Complete Conference	\$550.00	\$595.00
Guests for Wednesday Cocktail Reception and Thursday Cocktail and Dinner Reception ONLY.	\$245.00	\$299.00

The Class List!

Classes designed for New Users & those that are implementing Visual Shop

1. Implementing Visual Shop. A discussion and presentation of the procedures and process of successfully implementing Visual Shop at your facility including an overview of Visual Shop and how data flows through the system.
2. Setting up processes and parts for Heat Treaters. Look at the different ways Visual Shop can be set up for Heat Treaters.
3. Setting up processes and parts for Finishers. A look at the different ways that Visual Shop can be set up for Finishers.
4. Training on Orders, Certs, Expediting, and Shipping. A complete run through of these modules, their support modules, and reports.
5. Training on Quotes, Invoicing, AR, Pricing, and Sales Reporting. A complete run through of these modules, their support modules, and reports.
6. Training on Visual Shop utilities such as; Inventory, Notes, security, CCM, Bill of Laden, and others. A look at all the other utilities available in Visual Shop.
7. A final hour long wrap up to review and answer any specific questions on the classes you attended and provide you with an overview of how it all ties together.

Classes designed for experienced users.

8. A look at the capabilities and features of Part Maintenance and how it works with processes, pricing, quotes, and orders.
9. New features & options for: Orders, Certs, Expediting, Shipping and their associated reports and utilities.
10. New features & options for: Invoicing, AR, Pricing, Quotes, Sales Reports and their associated reports and utilities.
11. New features & options for: notes, security, CCM and other utilities.
12. **Tracking and Scheduling:** This class discusses how tracking and scheduling works and integrates with the rest of Visual Shop. Shows the different ways that tracking and scheduling can run. *For hardware requirements please schedule some time with our Tech Services group.*
13. New features and options for Tracking and Scheduling.

This is a preliminary list and is subject to additions and / or changes.

14. Understanding the Visual Shop database. Learn how the Visual Shop database is setup, where the data is, and how the tables are related. A pre-requisite for report writing.

15. A demonstration of InfoMaker, the Visual Shop Report Writer.

Classes for everyone

16. RFID tracking. A new way to track both jobs and operators. Best of all, it is done without any operator input. As you move the order from department to department, the system automatically updates its' location. As the operator moves around the plant, the system is automatically logging the departments visited.

17. Guest Presentation – Mike Bachman – Partners in Technology. An in depth look at accounting. Differences from one package to another. What can an accounting package do for you. Various ways it can be set up. And a look at the CSI / MAS 90 link.
www.partners-in-tech.com

18. Guest Presentation – Jim Oaks - Super Systems Inc. For Heat Treaters – A demonstration of an integrated solution between Visual Shop and SuperDATA. SuperDATA™ is an HMI/SCADA package. www.supersystems.com

19. Guest Presentation - Mark Waltz. Ion Quality Systems. IQS will present their Quality Management Software that will integrate with Visual Shop. Includes; document control, calibration, maintenance, internal audits, employee training, non conformance, and much more.

20. Visual Archive – No More Filing! No more searching through boxes of documents! Instant retrieval of any archived document! Fully Automatic!

21. Hardware / Networks / Managed Services – An analysis of the many ways that Visual Shop can run and the cost vs benefits of each option. Discussion on the benefits of managed services over traditional IT models. How to reduce IT costs and maximize uptime.

22. Managing Your Data – BACKUPS. EVERYONE SHOULD ATTEND. This class will cover Microsoft SQL Server. It will discuss backups, maintenance plans, and error checking. Most important it will show you how to determine if your backups are running correctly. It will help you to keep your data secure and your system running smoothly. We will demonstrate our remote backup software - Visual Safe.

23. Presentation on Visual Truck and Visual Net. What they do, their benefits, and what is required to get them up and running.

24. NO MORE HARDWARE CRASHES! System Watch continuously monitors every computer, server, and most other devices on your network. It will identify and report problems long before they become disasters.

Info!

South Beach, or SoBe, is Miami Beach's buzziest bit. The vibrant area, with its pastel-hued buildings, hip nightclubs, trendy shops and see-and-be-seen restaurants, attracts socialites and their satellites year-round. Plan to spend some time in SoBe's cool bars; things start heating up when the sun goes down.

Hotel Location: Set directly on the beach, the Ritz-Carlton South Beach is located in the Art Deco district in Miami Beach, Fla. The hotel is one block from the pedestrian shopping mall, Lincoln Road. Guests are within one-half mile of the famous Ocean Drive and the Miami Convention Center.

Hotel Features: Gourmet cuisine is featured at Americana, New World cuisine at David Bouley Evolution and live jazz at the Lapidus Lounge. Onyx 360, the exclusive table for 10, displays a 360-degree view of the hotel above the lower lobby.

The schedule is as follows;

Wednesday evening there will be a cocktail reception.

On Thursday classes will start early and end around 4pm. We will have a continental breakfast, breaks, and lunch. That evening there will be a cocktail and dinner reception which will be open to attendees and their guests.

On Friday and Saturday, classes will start early and end around noon.

*We will see you
at the Ritz!*
